

INTERCLUB SERIES 2021/22

Purpose:

1. Recognizing our clubs as the heartbeat and connectors of our sport and incentivising membership.
2. Providing an opportunity to recognize and reward participation and performance of clubs and their members throughout the season.

OVERVIEW

The TWA Interclub Competition is divided into three regions throughout WA. Clubs will accumulate points through their members' participation and performance at events listed on the Interclub Series Calendar.

These series will include metro and regional races chosen strategically due to their location and popularity amongst our membership.

Clubs affiliated with Triathlon WA will accumulate participation and performance points, the points will be tallied up at the conclusion of a race, and the online ladder board will be updated. Clubs in WA will compete for the title of "Conference Club Champion" against the other clubs in their conference.

The main information our members need to know is to ensure that when entering a race they are including the correct Triathlon Australia membership number and the first name and surname matches their TA membership. They will also need to ensure that they have selected their club as their "Primary Club" on their GoMembership profile. This automatically occurs for members who join a club at their initial sign up, but where a member retrospectively adds a club or has multiple club memberships they will need to ensure the correct club is nominated. Triathlon WA we will do all the rest of the work ensuring points are tallied, ladders are updated and individual and clubs are recognised.

Only members who hold a Standard or Premium Triathlon Australia membership will be eligible to earn points for their club. Members must be aged 12 or over at 31 December 2021 to be eligible to earn points for the club.

POINTS ALLOCATION

Points are allocated for participation and performance as such:

Participation Points

- 10% of club members race and finish = 3 participation points
- 15% of club members race and finish = 6 participation points
- 20% of club members race and finish = 9 participation points

Participation Point Rules

- A club's membership number is calculated as the number of members who will be aged 12+ on 31 December 2021, as at **COB 01 October 2021**.
- If the percentage of a club's membership is not a whole number, the required participant amount is rounded to the nearest whole number e.g: 10% of a 86 member club = 8.6 members – therefore the club requires **9 club members** to race and finish for 3 points. To qualify for 6 points this club would need to have **13 club members** race and finish. To qualify for 9 points, they would need to have **17 club members** race and finish.
- Smaller clubs with less than 20 members will be measured for participation points as if they are a club of 20 members.

Performance points

1 st	2.5 Performance Points
-----------------	------------------------

2 nd	2 Performance Points
3 rd	1.5 Performance Points

*Points will be allocated to the top 3 male and females from each age group division and open category where this applies.

Double Up

The Triathlon WA State Interclub Championships will be the Double Up event where the total points allocated to clubs will be doubled for this race only. ie: if the club has 10% club members race and finish, they will receive 6 points for the club. The double points are applied to both Performance and Participation points.

Max Out

Clubs can earn a maximum of 25 points at each event excluding the State Interclub Championships event where a club can earn a maximum of 50 points.

This point equalisation strategy will be implemented to allow clubs of varying sizes to compete against each other.

PROPOSED EVENTS

Date	EVENT
17/10/21	LGM Industries Bunbury City Classic
31/10/21	Rockingham Sprint Triathlon
